SURVIVAL GUIDE

WARNING: READ BEFORE USING YOUR PLAYSTATION™2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — **IMMEDIATELY** discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

STORY

LAYING IN WAIT...

It's been several years since the Capital Island tragedy. The horrors of the incident have faded from memory and the development of large cities throughout the nation has hit an all-time high. The city of Del Ray is one of these cities.

Surrounded by the ocean, mountains and rivers, Del Ray's limited land space compelled its development projects to go underground. One such endeavor—named the Geo City Project—would change everything in the area.

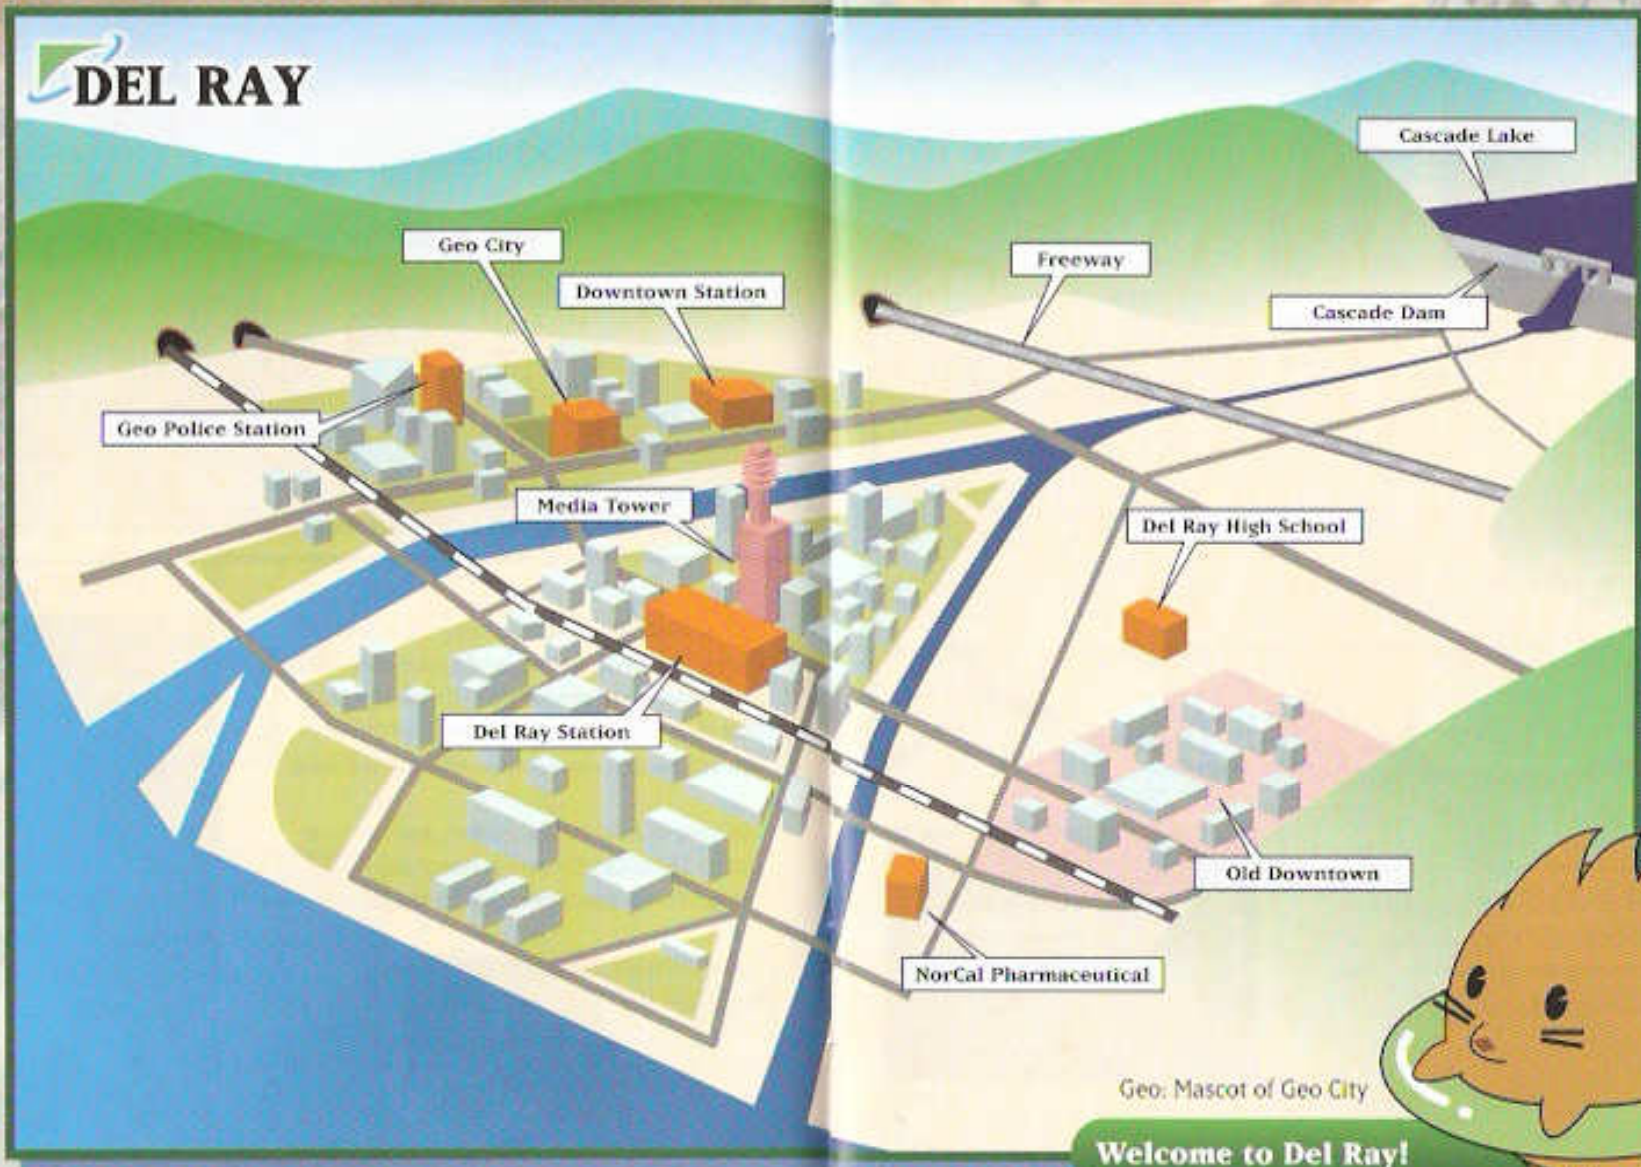

The year is 2010. It's December, and the long awaited Geo City Project is complete. Its completion marks a new era for the city.

Today, everyone is celebrating a rainy Christmas Eve . . .

CITY MAP

The city of Del Ray promises to change the future of mankind with its rapidly-developed "Geo City Project." The city itself is surrounded by the ocean, mountains and rivers.

IN-GAME SCREEN

ARROW

CONDITION

COMPASS

Arrow

The color of arrow changes depending on the character's body temperature; orange indicates character's body temperature is warm and blue indicates body temperature is cold. Direction of arrow indicates the character's health condition; if it points up, the body temperature is rising. If it points down, the body temperature is decreasing.

Condition

Indicates condition of the character. As the number of water drops increases, the character is in a more wet condition and body temperature lowers more rapidly.

Compass

Indicates the direction where the character is facing. Compass can be changed through the menu screen (see pg. 16).

CHARACTER'S CONDITION

Body temperature and health decrease when the character is wet or stays in cold weather. When it reaches a certain point, the character's moving speed decreases and visibility starts to blur and character collapses. When the character collapses, the game will be over.

Body temperature and condition can be viewed in the menu screen (see pg. 16).

First Person Camera View

Camera view switches to first person view when holding down the button.

Use the left analog stick to look around in first person-camera view.

Pause

Press the START button on main in-game screen to pause the game and press again to resume the game.

If the game is left without pausing, the character may freeze and the game may be over.

CONDITIONING IS THE KEY

The purpose of this title is to survive in the flooded city. If the character collapses, gets washed away, or falls from the edge or from a building, the game will be over. Game may end under other conditions too, depending on the character.

SURVIVAL POINT

An orange arrow will appear on the screen when the character is around a stove, bonfire and other specific places. It's called the Survival Point, where a meal can be prepared, wet clothes can be dried, and/or game data can be saved.

WARM UP

To warm up the body and dry clothes. Body temperature will be restored.

EAT

A meal can be cooked if cooking ingredients and utensils are available. A player's character can share the meal with a person who/she he is traveling with.

SAVE

Save game data

*Remember!
Stay dry & warm!!!*

GARBAGE CAN / JASPER

Items can be stored in a garbage box. Also, Jasper can take items from characters and store them. Stored items can be picked up by different characters within the story.

Garbage Can

There are garbage boxes around the city. Items can be stored in them and picked up later in the game.

Stored item(s) can be picked up from the garbage box where the items were stored.

Jasper

Jasper walks around town and he can store a character's items for later use. A different character can take items from Jasper if he/she runs into him.

Menu SCREEN

MENU

Press **ESC** button to open menu screen to use Item(s), assemble an item, use special talents, view information/books, or change game settings. Press **ESC** button to exit.

BT GAUGE

WEIGHT GAUGE

BT Gauge

Indicates character's body temperature and health condition. Staying in water or cold weather will have negative influence on BT and health condition and the color of gauge will change from red to green.

WEIGHT Gauge

Indicates total weight of items possessed. If the gauge is full, a new item cannot be picked up. Maximum weight load varies depending on the back pack/pouch equipped.

Two or more items can be assembled to build an item. On the other hand, some item can be disassembled into a few pieces that can be used separately.
