During desolate times on the "Sea of Sand", Drifters venture across the vast lands of Filgaia searching for fortune and adventure. Amidst the deserts lie cities erected from eroded rock and scavenged wood. Towns that a few call home provide rest and solitude for the many travelers of the barren wasteland.

Tales of mystic relics that harness unmatched powers spread across the land. While some view the items as treasure, others have deciphered a secret bringing unlimited power.

Meanwhile, one object of mythical stature attracts four Drifters to a common place. These four strangers discover the strength in working as a team. Shortly thereafter they learn of an ancient prophecy determining the future of their eroded homeland. Setting aside their differences, they roam the lands and unlock the knowledge and mystical forces making their adventure their destiny.

## ARM SMITH MODIFICATION SHOP

You will be able to modify ARMs to increase performance. If you wish to return the modified ARM to its original specifications, you may select "initialize modification" and choose the character for which you would like to reset the ARM for.

## HOW TO MODIFY

- Select a character's ARM. The current ARM capabilities will be displayed.
- Select from Attack Revision, Hit Revision, Bullet Revision, ARM Weight, Critical and Choose Modification. The amount necessary for modification will be displayed.

## GARDENING

The only way to increase your inventory of recovery items is by Gardening. Gardening is possible at the Secret Garden. Talk to Florina in the garden. Use Sow to cultivate recovery items, Breeding to increase collection rate and Harvest to gather cultivated items.

## HOW TO SOW

- Items you can cultivate and the amount that you can carry are displayed by the Sow command.
- The items you are able to cultivate and the number that you hold will be displayed next to the Sow command. Seedling is required to begin cultivation. You will be able to begin cultivation by using an item that possesses Seedling. It is not necessary to use another Seedling for an item that has already used a Seedling.
- Choose the flowerbed and the item you wish to cultivate. There are 8 different flowerbeds available. The cultivation will begin when you choose the flowerbed and when the Seedling is planted. The Seedling will grow as the game progresses and after a certain amount of time you will be able to harvest the cultivated item.

## HARVEST RATE

Harvest does not always succeed. Cultivation may fail and you may not be able to collect after a certain amount of time. You may increase the harvest rate by increasing the Breeding Improvement. The Harvest Rate will increase as you use up the same item being cultivated.
