WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the Cabela's® Deer Hunt: 2005 Season™ disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

Cabela's DEER HUNT 2005 SEASON

MENU NAVIGATION

MAIN MENU

From the main menu, you can start a complete hunt in Career Hunt mode, go for a Quick Hunt, select game Options, read Hunting Tips, view High Scores or watch the Credits.

QUICK HUNT

Hunt in any unlocked location with no impact on your resources. You can practice firearm/bow and item usage, learn more about the region and apply all of this in Career Hunt.

CAREER HUNT

Play a complete hunt, unlock regions as you go and play Missions and shooting Contests while respecting all hunting regulations and carefully managing your resources.

OPTIONS

Set visual, audio and controller options.

HUNTING TIPS

Read tips on how to play the game.

HIGH SCORES

View the list of high scores that are saved on the memory card.

CREDITS

View the Deer Hunt credits.

Cabela's DEER HUNT 2005 SEASON

CAREER HUNT

The Career Hunt option gives you a full hunting experience, including progression from a novice with little equipment to an amateur hunter, then to an expert hunter with a cabin full of equipment and trophies. The goal is to reach the bag limits for each hunting region and in each season without running out of money, supplies or health, and without breaking the law. Disregard for the hunting regulations will result in penalties. After entering the first desired location, all incomplete locations will become locked until you complete the level you have chosen. You can try any of the locations in Quick Hunt mode except for the private property ranches which must be unlocked in Career Hunt.

PROFILE SCREEN

Once you choose the Career Hunt mode, you are asked to choose from restoring a previously saved game or creating a new hunter character and starting a completely new career.

DIFFICULTY LEVEL

After creating your hunter character, you must select the difficulty level you wish to play.

Cabela's DEER HUNT 2005 SEASON

Choose **EASY** if you're a new, inexperienced hunter. On this difficulty level, deer are more responsive to calls, have less acute senses and you can benefit from aids like the Trophy Beacon (which marks the position of every game animal on the map by a red dot) or the Bullet Camera (see through the bullet as it transverses the space between you and the target) and the game is more forgiving of your aiming. Deer are frequent, but trophy scores are poor.

Choose **MEDIUM** if you are an amateur hunter. Deer frequency on the map is decreased and luring deer is more difficult and requires more patience. Trophy Beacons will only display within 100 yards of a game animal. Aids such as the Bullet Cam are disabled and bad aiming is more severely penalized.

Choosing **HARD** really puts your hunting knowledge and skills to the test. Lures, calls and decoys are much less effective, and taking down deer requires a combination of stealth, skill with your firearms and a depth of knowledge about the wild. This is the difficulty that expert hunters play.

CHARACTER SELECTION

Character selection in Deer Hunt 2005 Season is more than just cosmetic: each character has special skills and weaknesses.

There are a series of attributes that you should observe for each hunter, such as aiming accuracy, resilience, strength, tracking experience and stealth. Choose the character that best suits you. When you choose your character, you can also choose 5 different faces for that character by scrolling through the options under "Skin". Here's where you'll also choose the Log Cabin where your trophies will be put on display.

Cabela's DEER HUNT 2005 SEASON

BONUS CHARACTERS

As you advance in the Career Mode, you'll unlock new and exciting characters to play with. They are experts in particular areas of hunting experience, so be sure to check them out.

You can unlock new characters by completing the game on any of the available difficulties; easy, medium or hard.

Character	Strengths	Weaknesses
Teenage male	He can shoulder heavy loads while walking long distances without losing too much stamina.	His stealth and tracking abilities are not the greatest.
Mid-40s male	He's able to handle the heaviest firearms and equipment without an excessive loss of stamina.	His accuracy, stealth and tracking abilities are somewhat average.
Mid-60's male	Has top-notch tracking abilities along with exceptional accuracy and stealth.	A lack of strength and resilience allows him to tire easily.
Teenage female	A good shot and somewhat resilient.	She can't carry a lot of heavy equipment and her tracking abilities are largely undeveloped.
Mid-30s female	Her accuracy is incredible and she's stealthy when she needs to be.	Her tracking does need a little work.
Bonus Character: Peter	As a former sniper in the Army, Peter's accuracy and stealth are off the charts.	Unfortunately, his tracking ability leaves a great deal to be desired.
Bonus Character: Jim	He was raised in a family of hunters. His tracking expertise is incredible while his strength and resilience are second to none.	His shot is just about average and he's never been very stealthy.
Bonus Character: Patrick	Strong as a bear and resilient as stone, Patrick is about the best there is when it comes to hunting deer. He also has a rock-steady aim and superb tracking abilities.	Stealth is not his strongest asset, but his strengths make up for any shortcoming.

Cabela's DEER HUNT 2005 SEASON

GET READY

From here you can select which location you would like to hunt. There are also Missions to complete and Contests to win. As you progress through each region and season, more Missions and Contests will become unlocked that you can try. If you want to practice your shooting or sight your firearm or bow for better aiming, enter the Target Range.

TARGET RANGE

Select your location:

- Indoor Range: Sight and test your firearm for better aiming. Targets are on tracks so you can easily see your shot grouping.
- Outdoor Range: Try out various targets with your firearm or bow. Practice on separate ranges for rifles, shotguns, handguns and bows.

CONTESTS

A good place to earn some extra cash and become a better shot. These outdoor and indoor shooting contests become unlocked while completing the various hunting regions.

Cabela's DEER HUNT 2005 SEASON

MISSIONS

Test your skills as a hunter. Complete all of them to unlock some new items. Like Contests, the Missions will become available as you progress through the hunting regions.

HUNT

Are you ready for the best deer hunting in North America? Hunt your way through the public hunting grounds of Montana, New Mexico, Colorado, Oregon and British Columbia. When you have completed each season on the public hunting grounds, you can start unlocking the private ranches in Texas, Florida, Arizona and Nebraska. In these regions you will be able to stalk some exotic and unusual species of deer.

• SELECT GEAR

Here you can select the equipment you want to bring with you in the hunt. You can add items to your inventory. From your inventory, you can choose what items you would like to put into your backpack and take out into the field.

• AUTOEQUIP

Don't want to spend your time picking out gear? Let AUTOEQUIP choose a selection of items for you that works for the region and season you have selected.

• LOCATION

When you begin your Career Hunt you must choose a region and a season in which to start. At the start of the game, all five of the public hunting grounds are open to you. After choosing a region, all others then

Cabela's DEER HUNT 2005 SEASON

become locked until you complete both seasons in the region you first selected. Upon completion, you can then select from the four remaining regions. When you've completed all the public hunting grounds, you can begin unlocking the private ranches. And make sure you choose which area you want to start in before entering into a region.

• GUIDE

For each region, information regarding that region, including deer, hunting regulations and expert hunting advice is available. Choose the guide for that information. Always read the guide before entering a new location; knowledge about the game animal you're hunting and the location features could be the factors that make your hunt successful one.

LOG CABIN

In the Log Cabin you can see the trophies you have taken at any given stage in the game up on your wall. You can view specific information for each trophy such as scoring, time of kill, shooting distance and the firearm or bow used.

Cabela's DEER HUNT 2005 SEASON

Also inside the Log Cabin is your Log File which records the regions you've entered, the animals you've hunted and other vital statistics.

SCORING

On this screen you can see information about the highest scoring deer of each species that you have taken, as well as your current player stats. And by using the code at the bottom of each record, you can post your high score at www.cabelasgames.com.

SAVE GAME

Saves progress of the game.

OPTIONS

You can center the viewable area by adjusting the horizontal and vertical offsets and screen sizes. Music and effects volume can be adjusted separately. You can also turn the controller vibration on or off, select your controller configuration and restore all settings to their default positions.

PLAYING THE GAME

QUICK HUNT

The Quick Hunt mode allows you to practice hunting, with no effect on your resources. All items are free in Quick Hunt.

HUNTING

After having equipped yourself with the suitable items, the real hunt begins. In Deer Hunt there are two main camera modes: the 1st person view and the 3rd person view. You should use the 1st person perspective mainly for handling weapons and items and the 3rd person view for moving through the environment and for vehicle use.

Cabela's DEER HUNT 2005 SEASON

THE GAME SCREEN

On the game screen, there are a few elements that you should always check if you desire a successful and trouble free hunt.

The **Energy/Health Indicator**, a human-shaped meter, is one of the most important elements to look for, as when energy reaches the critical level you will be transported to the lodge for immediate medical attention, and will be forced to restart the hunt. You can restore energy using the daily rations, by drinking water from your hydration bladder or sleeping in your tent. Always choose the appropriate camping accessories and clothing for better chances of survival in the environment. Damage can be healed using the medical kit.

Very closely related to the energy meter, the green **Stamina** meter shows your ability to run and also has an impact on your aim. Just rest for a while and the stamina will recover. Keeping the stamina level too low for long periods results in health loss.

You can easily check your stealth by looking at the **Stealth Meter**.

Inside the Stealth Meter, the flag shaped **Wind Indicator** helps you to keep track of the direction the wind is blowing and therefore allows you to always keep downwind from your game.

The **Compass** is a very valuable tool in the wilderness. You'll never get lost if you also bring a map.

If your weapon is readied, the game screen will also show what **weapon** you are using and the **ammunition** you have left to fire without reloading.

Cabela's DEER HUNT 2005 SEASON

There's no ammo limit. You can reload your weapon as many times as you like; however, a good hunter never fires his gun unless he's sure of his kill.

GAME MODES

The goal for the hunt is to reach the bag limits for the location you have selected. Only legal trophies will be taken into account. Any illegally gained trophies will result in penalties. You should always check the hunting guide for hunting regulations or else you'll learn about them the hard way. *There are two modes of hunting: Wilderness Tracking and Stand Hunting.*

WILDERNESS TRACKING

Wilderness Tracking allows the hunter to look for deer as they roam each of the hunting regions. This mode of hunting requires the use of Navigation Tools and carefully watching for any signs of animals, such as animal tracks. It is here where the Automatic Tracking system proves to be invaluable. Discovering animal passage signs can sometimes be difficult and very much depends on your tracking experience. You will also be using your hunting accessories, such as calls and scents. It is best to bring a map or a GPS, for it is very easy to get lost in the wilderness. When hunting animals with a very keen sense of smell, it is very important to always stay downwind from the pursued game. To accomplish this, check the wind indicator as often as you can and carefully watch your stealth meter.

STAND HUNTING

Stand Hunting allows you to remain in one location and wait out the desired target. Once you have found a desirable place to set up a stand, you can select the gear from your inventory. This mode of hunting relies heavily on using hunting accessories, such as calls, lures and decoys. It is also important for you to notice any signs of animals in order to select the best locations to set up your stand.

PAUSE MENU

Pressing the START button will bring up the pause menu. This also allows you to change game options, set sound volume and restart the map without leaving the location.

OPTIONS

Select the preferred controller configuration for the hunter and the vehicle. You can center the viewable area by adjusting the horizontal and vertical offsets and screen sizes. Sound and music volumes can be adjusted separately. You can also turn controller vibration on and off. Also, all settings can be set back to their default positions.

GAME OPTIONS

Trophy beacon: Where available, lets you turn on and off the Trophy beacon display.

Auto claim trophy: When you kill an animal, the trophy is automatically awarded the moment it has died.

Bullet camera: When turned on, for each shot that you take, you'll follow the projectile until impact.

Invert Y: Invert the look up and down control.

Show HUD: When set to off, on-screen indicators aren't displayed.

ITEM SELECTION MENU

Access it by pressing the SELECT button. This menu shows the items in your backpack. Just select the piece of equipment you want to use. You can also see your bag limit, what you've hunted, the time, the date and the temperature.

USING FIREARMS AND BOWS

You can choose from a wide selection of hunting arms, ranging from bolt-action rifles, shotguns or lever action rifles to handguns and archery equipment. You should always sight your firearms after purchase to ensure an accurate, clean shot. Select the firearm from your backpack using the **ITEM SELECTION** menu. Each has an aiming mode, which offers greater accuracy. You should always use the aim mode, except for the situations when there's no time to prepare your shot, such as when an animal is charging the hunter. In the default controller configuration, use the R2 button to aim.

THE SCORING SYSTEM

Scoring your trophies is an important part of your hunting life. The game provides automatic measuring and accurately tells you the score for your trophy.

TYPICAL VS. NON-TYPICAL

Deer antlers can come in many shapes and sizes. When a rack is symmetrical overall and the beams, tines, and points all match up on either side, you have bagged a typical buck. But watch out for the rarer non-typical buck. These guys can have some wild rack shapes, caused by genetics, their environment, and damage to the antlers while they were growing. A sure sign if you got a non-typical buck is the number of points on each side. If they don't really match up, he's a non-typical.

ITEMS IN DEER HUNT

The items are grouped into several categories, by their purpose.

EQUIPMENT

This category deals mostly with wilderness survival and orientation.

Light Weight Tent

A tent for warm climate locations.

Medium Weight Tent

This tent gives you average protection from the elements.

Heavy Weight Tent

A tent that provides a large energy boost, even in the coldest weather.

Tree Stand

Install in any suitable tree and lure in your game.

Tripod Stand

Hunt above the ground without the need for a tree.

Ground Blind

Hide from game inside this durable blind.

Forest Blind

A different camo pattern makes this blind effective for forested regions.

Winter Blind

A good blind for blending into snowy ground conditions.

Binoculars

Provides a means to see game from a distance.

Spotting Scope

Very similar to binoculars, it provides higher zoom levels.

Range Finder

In addition to high zoom levels, the range finder provides you with automatic distance readings to help you calculate your shot.

GPS

You will never get lost with this Global Positioning System, which provides latitude and longitude readings, and allows you to place markers to trace your route.

Map

Indicates your position on the map and other important spots, such as cabins in the area.

Hydration Bladder

Carries water supplies and can quickly restore some energy when needed.

Daily Rations

Food supplies that will increase your energy.

Self Heating Meal

Eating this helps to increase your energy.

Medical Kit

Use this to heal damage taken on body parts. It will first heal your legs and then the rest of your body.

FIREARMS & BOWS

12 Ga. Pump Shotgun

This shotgun holds four rounds of buckshot. This shotgun is a great choice for close range hunting, but is limited to about 50 yards.

.30-30 Lever Action Rifle

This century-old hunting classic continues to be popular today. A heavy bullet and short barrel combine to make the .30-30 a perfect choice for hunting in thick woods or brush.

.243 Semi-Automatic Rifle

The .243 is a great long distance, flat shooting caliber. Add some high quality optics and you'll get an excellent deer rifle.

Cabela's DEER HUNT 2005 SEASON

.30-06 Semi-Automatic Sportster

The .30-06 is one of the most used calibers, and this semi-automatic model allows quick reloads and follow-up shots. It is capable of firing with reasonable accuracy over long distances with good optics.

.30-06 Bolt-Action Rifle

The .30-06 bolt action rifle is a hunting classic with the ability to cleanly take down game at long range. With a good scope, this is a great rifle for beginners and experienced hunters alike.

.270 Bolt-Action Rifle

At this caliber, a rifle becomes a real threat for any deer. Easy to handle, but not ideal for a long range contest.

.280 Bolt-Action Rifle

The .280 fires a slightly heavier 150 grain bullet than the .270, but is still capable of long range accuracy. There is a little more drop at long distances, but with experience this rifle can be a hunter's best friend.

.300 Magnum Bolt-Action Rifle

The .300 Mag is one of the most accurate hunting rifles in the world. With properly sighted optics, this rifle can consistently down the biggest trophies at extremely long ranges.

.44 Magnum

The .44 Magnum is a hard hitting pistol at close range, but the heavy, wind resistant bullet severely limits its range.

Recurve Bow

Employed by archery traditionalists, this recurve features a 60 pound weight at a 28 inch draw. No let off means you can't hold the bow drawn for very long. There are no sight pins on this bow, so practice is essential in developing a good shot.

And more firearms waiting to be unlocked...

Cabela's DEER HUNT 2005 SEASON

ACCESSORIES

Scent Doe Estrus

Attracts rutting bucks.

Scent Cover

Scent cover will mask your own odor.

Rattling Antlers

Attract deer with these synthetic antlers by simulating the sounds of bucks fighting.

Bleat Call

Attracts rutting bucks.

Grunt Call

Using the right call will help draw in the deer.

Deer Feeder

Set up a deer feeder to lure in your game.

Deer Decoys

The many species of deer all have a doe and a buck decoy so you can lure in the perfect trophy.

CLOTHING

Choosing appropriate clothing for your hunt is very important. Not only do some regions require blaze orange during some seasons, but clothing can also affect your health. Wearing heavy clothing in summer or light clothing in winter will cause your hunter's health to decrease significantly.

And many more...

Cabela's DEER HUNT 2005 SEASON

THE AUTOMATIC TRACKING SYSTEM

This gives you valuable information on the movements of game animals, indicating the direction and age of the trail together with the species that the animal belongs to. Tracking results can be good or bad according to your character's tracking experience.

LOCATIONS

Montana

Whitetail Deer
Montana. In Spanish, its name means "mountain", which becomes quite evident if you decide to cross one of the state's 40 or so mountain ranges. This "Big Sky Country" has a long and legendary hunting tradition. Many seasoned hunters come here for the deer hunt of a lifetime. Along Montana's highland

streams and rivers, in the cottonwoods and shrubs, you're sure to see Whitetail Deer. Although they may be hard to spot through this region's dense pine forests. Keep an eye on where you step! This rugged landscape and its sharp changes in elevation can provide a rewarding hunt or a near-death experience. If you gaze too long at Montana's beautiful vistas, you may find yourself tumbling over a cliff.

New Mexico

Desert Mule Deer
With towns like Roswell, Truth or Consequences, and Silver City, New Mexico is certainly an out-of-the-ordinary sort of place. It is also home to some exceptional deer hunting. New Mexico's terrain can range from low elevation deserts and shrub lands to river bottoms and Ponderosa forested mountain

country. Its arid climate and seemingly sparse collection of animals may be

Cabela's DEER HUNT 2005 SEASON

deceiving at first. But take the time to look, and you'll find a hidden diversity of wildlife. Desert Mule Deer are especially abundant. With a little patience, you'll be able to get some really high-scoring Desert Muleys. They're browsers, so look for them feeding among the green leaves, twigs, lower branches of trees, and various grasses scattered throughout the region.

Colorado

Rocky Mountain Mule Deer
Colorado is home to the great Colorado Rocky Mountains. Its landscape contains Pike's Peak, Castle Peak, Mount Massive, and 49 other mountains over 14,000 feet. Because of the extreme altitudes, the air is thinner, the sky is bluer and the weather is unpredictable. Although many of its

mountaintops have been flattened by ancient erosion, glaciers have left steep scars, U-shaped valleys, and lakes. Moving through this land of giants are some big Rocky Mountain Mule Deer. Because this is some of the steepest back country in the U.S., they can be found at elevations of up to 11,000+ feet. They migrate up and down seasonally to avoid heavy snows.

Oregon

Columbian Blacktail Deer
This was the final stop for many settlers heading west on the legendary Oregon Trail. As far back as 1841, gold seekers, fur traders, and pioneers hunted game animals through these forested mountain slopes and sagebrush plateaus. The Cascade Mountains in particular are note-worthy. They are wetter

than most of Eastern Oregon, and they have good Blacktail deer populations. Dense coniferous forests and some steep inclines and gorges make this some difficult terrain to hunt. Use elevation to your advantage. Columbian Blacktails are experts at hide-and-seek. They use the thick foliage to their advantage as they lie motionless, waiting for a hunter to pass.

Cabela's DEER HUNT 2005 SEASON

British Columbia

Sitka Deer
British Columbia is Canada's westernmost province. On its north coast and the adjacent mountains, Sitka Deer can be found. This area is home to some of Canada's oldest and largest trees; the Sitka is able to hide well in this terrain. In many places the mountains rise in sheer cliffs along the seacoast, forming deep, narrow inlets similar to the fjords of Norway. Covered in glaciers, they make up some of the most beautiful scenery in North America. In fact, the many islands of the coast are tips of this partially submerged mountain range.

Texas

Sika Deer
In Texas you will be hunting the Sika Deer. Although native to parts of Siberia and Japan, these deer were introduced into 77 different counties in Texas many years ago. As far back as 1930, Texas has been introducing exotic game species onto its landscape. This makes for some awesome hunting

for deer species you normally wouldn't get the chance to stalk. The patchwork of brush cover and open grassland found in the Texas Hill Country are ideal for this deer. The region's semi-arid climate and rough terrain produce Texas wintergrass and Texas sotol—two of the Sika's favorite food.

Cabela's DEER HUNT 2005 SEASON

Nebraska

Fallow Deer
Although Nebraska is considered a plains state, there is considerable changes in elevation in this region. It also has one of the best supplies of surface and underground water in America. This can make for some ideal deer habitats. Fallow Deer is your quarry here. Not native to the area, it has been imported into private land from the Mediterranean and Asia Minor. It is a beautiful and challenging species to hunt. In Nebraska, it grazes on grasses and herbaceous plants in summer, and browses on the woody parts of deciduous trees and conifers in winter.

Florida

Axis Deer
Florida, The Sunshine State, has a warm and swampy landscape that is an ideal place for the Axis Deer. This species is originally from India; they were introduced onto private range land decades ago. The dense shaded wilderness and ample water supply of Central Florida are very friendly to the Axis Deer. To

the North, near Lake Okeechobee, the interior of the peninsula is hilly and is dotted by numerous lakes. The highest hills are a little more than 300 feet above sea level, but the area is sometimes called the Central Highlands or the Backbone of Florida.

Arizona

Coues Deer
Arizona's landscape is one of great diversity. Arid mountains and valleys, lofty plateaus, deep canyons, and large expanses of desert make it one of the most beautiful states in America. And of course, it is also home to the Grand Canyon. This scenic beauty, coupled with great deer hunting, has made

Arizona very popular with hunters. Coues Deer make their home in Arizona. They live on slopes of brush and cactus which can offer sparse cover. This terrain makes having good optics almost essential. Use the tops of ridges to spot them and then stalk them. Great patience and stealth will reward you with some trophy Coues bucks.

The hunting seasons, laws, regulations and any other design elements presented in this game are not guaranteed to be accurate and should not be considered a reference source. To learn about hunting in a given area, contact that area's DNR (Department of National Resources) office.

WILDLIFE IN DEER HUNT

Whitetail Deer

White-tailed deer refers to the white underside of the tail, which is held aloft like a signaling flag when the animal is alarmed or running. The adult whitetailed deer has a bright reddish brown summer coat and a duller grayish brown winter coat. The belly of the deer is white. The male has forwardly curved antlers that bear a number of

unbranched tines. Whitetail deer feed on a variety of vegetation, depending on what is available in their habitat.

Desert Mule Deer

The mule deer is stockier than the related whitetailed deer. It stands 3-3.5 feet at the shoulder and is yellowish to reddish brown in summer, grayish brown in winter. The tail is white with a black tip. The male has antlers that fork twice above a short tine near the base; a mature male normally bears five tines on each antler. Mule

deer are browsers and eat fresh green leaves, twigs, lower branches of trees, and various grasses. The mule deer lives alone or in small groups. Desert mule deer are closely related to rocky mountain mule deer, with the exception of their preference for desert regions.

Rocky Mountain Mule Deer

The mule deer is stockier than the related whitetailed deer. It stands 3-3.5 feet at the shoulder and is yellowish to reddish brown in summer, grayish brown in winter. The tail is white with a black tip. The male has antlers that fork twice above a short tine near the base; a mature male normally bears five tines on each antler. Mule

deer are browsers and eat fresh green leaves, twigs, lower branches of trees, and various grasses. The mule deer lives alone or in small groups. Rocky mountain mule deer are closely related to desert mule deer, with the exception of their preference for mountainous regions.

Columbian Blacktail Deer

Columbian blacktail are very similar to Mule deer, although they are markedly smaller and have a longer tail. They are also a little bit more skittish than mule deer, although they are braver than whitetail. They frequent a wide variety of terrains, and feed on many types of vegetation.

Cabela's DEER HUNT 2005 SEASON

Sitka Blacktail Deer

The Sitka blacktail is native to the wet coastal rain forests of southeastern Alaska and northwestern British Columbia. Transplants have expanded its range. Sitka blacktails are smaller and stockier than Columbian blacktails and generally have smaller horns. Blacktails are gregarious, forming herds of mixed sexes

Sika Deer

Sika tend to be a much darker deer than other species. They almost resemble a small elk rather than a deer. They have wide range of rack sizes, and tend to prefer woodlands over open areas.

Fallow Deer

Fallow deer are an exotic species with a very unique appearance. Their antlers are palmated, much in the way a moose's antlers grow. They have keen senses, so move carefully. Look for spots on their coat.

Axis Deer

Axis deer, also known as Chital, are a spotted deer with antler that reach high into the air. They are a beautiful and graceful species. They like to steer clear of difficult terrain, preferring the cool shade of trees near water.

Cabela's DEER HUNT 2005 SEASON

Coues Deer

The Coues deer is a subspecies of the whitetail deer. It is much smaller than most of its eastern cousins. Coat color is grayish-brown salt-and-pepper with white underparts. The tail is all white on the underside, gray to reddish-black on top, and is often carried high as an alarm signal. These smaller whitetails appear to have much larger tails than whitetails in the East. The Coues deer is an herbivore and feeds on many trees and shrubs. Generally lives alone or in small groups.

NOTES

Cabela's DEER HUNT 2005 SEASON

Software License Agreement

USE OF THIS PROGRAM IS SUBJECT TO THE SOFTWARE LICENSE TERMS SET FORTH BELOW. "PROGRAM" INCLUDES THE SOFTWARE INCLUDED WITH THIS AGREEMENT, THE ASSOCIATED MEDIA, ANY PRINTED MATERIALS, AND ANY ON-LINE OR ELECTRONIC DOCUMENTATION, AND ANY AND ALL COPIES AND DERIVATIVE WORKS OF SUCH SOFTWARE AND MATERIALS, BY OPENING THIS PACKAGE, AND/OR USING THE PROGRAM, YOU ACCEPT THE TERMS OF THIS LICENSE WITH ACTIVISION, INC. ("ACTIVISION").

LIMITED USE LICENSE. Activision grants you the non-exclusive, non-transferable, limited right and license to use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision. This Program is licensed, not sold. Your license carries no title or ownership in this Program and should not be construed as a sale of any rights in this Program.

OWNERSHIP. All title, ownership rights and intellectual property rights in and to this Program and any and all copies thereof (including but not limited to any titles, computer code, themes, objects, characters, character names, stories, dialog, catch phrases, locations, concepts, artwork, animation, sounds, musical compositions, audio-visual effects, methods of operation, moral rights, and any related documentation, incorporated into this Program) are owned by Activision or its licensors. This Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. This Program contains certain licensed materials and Activision's licensors may assert their rights in the event of any violation of this Agreement.

YOU SHALL NOT:

- Exploit this Program or any of its parts commercially, including but not limited to use at a cyber cafe, computer gaming center or any other location-based site. Activision may offer a separate Site License Agreement to permit you to make this Program available for commercial use; see the contact information below.
- Sell, rent, lease, license, distribute or otherwise transfer this Program, or any copies of this Program, without the express prior written consent of Activision.
- Reverse engineer, derive source code, modify, decompile, disassemble, or create derivative works of this Program, in whole or in part.
- Remove, disable or circumvent any proprietary notices or labels contained on or within the Program.
- Export or re-export this Program or any copy or adaptation in violation of any applicable laws or regulations.

LIMITED WARRANTY. Activision warrants to the original consumer purchaser of this Program that the recording medium on which this Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. In the event that the Program is no longer available, Activision retains the right to substitute a similar program of equal or greater value. This warranty is limited to the recording medium containing the Program as originally provided by Activision and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

EXCEPT AS SET FORTH ABOVE, THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY KIND SHALL BE BINDING ON OR OBLIGATE ACTIVISION.

When returning the Program for warranty replacement please send the original product disks only in protective packaging and include: (1) a photocopy of your dated sales receipt; (2) your name and return address typed or clearly printed; (3) a brief note describing the defect, the problem(s) you are encountering and the system on which you are running the Program; (4) if you are returning the Program after the 90-day warranty period, but within one year after the date of purchase, please include check or money order for \$20 U.S. currency per disc replacement. Note: Certified mail recommended.

In the U.S. send to: Warranty Replacements, Activision, Inc., P.O. Box 67713, Los Angeles, California 90067

LIMITATION ON DAMAGES. IN NO EVENT WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE PROGRAM, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION. Without prejudice to any other rights of Activision, this Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of this Program and all of its component parts.

U.S. GOVERNMENT RESTRICTED RIGHTS. The Program and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

INJUNCTION. Because Activision would be irreparably harmed if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

INDemnITY. You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS. This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California. If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, (310) 306-2000, (Ath. Business and Legal Affairs, ega1@activision.com.
