⚠ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation®2 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

Main Menu:

Ever since you could remember, it has been your dream to become a Pop Legend. Music is your life, your passion. Now is the time when dreams become reality.

At the title screen, you have 2 selections: Start New Band and Load Band. If this is your first time playing, you need to select Start New Band.

The Making of A Band:

Well, you can't go at it alone. You need a strong band. From this screen select one of the preset bands or you can select Custom to customize your own band. Pressing Up or Down on the Strum Bar will cycle through available bands and the customize band option.

If you choose Custom, you will be taken to the Customize Band Screen. On this screen you can select your pop idol, as well as your supporting band members. Pressing Up or Down on the Strum Bar will cycle through the various band members. Pressing the Green Button will confirm your selection. Pressing the Red Button will go Back to the previous selection. Now select from the following choices:

- Band 1:** Boy Band (one member is a girl to cover for the female vocals).
- Band 2:** Girl Band (one member is a boy to cover for the male vocals).
- Band 3:** Boy/Girl Band (2 boys and 2 girls).
- Custom:** Pick and choose your band members. (At least one member must be of the opposite gender to cover for male/female vocals.)

Once your band is selected, you will have to choose a name.

Edit Name:

Remember that the band name you choose is essential. Make sure it has meaning and purpose. After all, sometimes a name can make or break you.

Here you can alter the name of your band. Pressing Up or Down on the Strum Bar to cycle through available letters. Pressing the Green Button will select that particular letter. When you are happy with your band name, cycle Up or Down to select 'done', and press the Green Button to accept name edits.

Band Space:

There are a variety of band spaces that will be made available to you as your band gains popularity.

- Garage -** Once your band is formed, you start the game off in the garage.
- Transit Van -** Win these wheels by winning the School Competition.

Music Venues Map

The world will soon be your oyster! In the meantime, you must start small by sticking to a variety of local venues. Green Stars represent the available venues. Selecting a Green Star will display what songs you can play.

Blue Stars represent venues available and started, but not yet completed.

A Red Star indicates that the venue is not available to you yet.

Gameplay:

Select a venue and song, and then play away. Your time is Now! There is no turning back. You are on stage with your band behind you, and the adoring masses of fans in front. It is time to shine!

As the music notes make their way down the fret board, press and hold down the button that matches the color of the music note. Once the note passes the timeline, move the Strum Bar to strum.

If you play well, the explosion meter fills up arming an explosive effect. You have 5 seconds to set off an explosion after it has been armed (Tilt the Guitar to trigger the explosion). The score multiplier meter also fills up to increase the multiplier but it will regress if you make mistakes.

How does the audience rate you? The fan meter will let you know your performance ranked by the audience. The better you do, the higher the meter. Make them happy, otherwise, you'll get booted off the stage before the performance is over.

If your performance is a success, you will earn cash, an increased fan-base, and new venues to play in! With access to new venues, you will unlock new songs.

Rehearsal:

Here you can rehearse any track from the currently unlocked venues. If a section of a song seems too hard, you can practice it here to improve your skills. Practice makes perfect!

Booking Studio Time:

Once you complete a song in front of a live crowd, you can then reach out to a much wider audience by recording the songs you have played at venues, and releasing them as a video to your fans.

Select an available song from your playlist and you will be brought into the studio. Playing well will ensure a bigger fan base.

Here is where you'll play a song divided into four Takes. Completing these Takes will unlock a video of your band playing the song in the studio. Releasing your band's own videos will ensure a wider audience turn out at your next event.

Watch videos of your songs through the Video Player, available in the Magazine Area located in the Band Space.

Need more fans, but can't get past a certain venue or just don't want to keep doing the same thing over and over again? Just record covers of unlocked songs. Unlocking songs is a useful reward since you'll be releasing a video of it! Every time you release a video-cover of a song you gain new fans!

Cash Book:

Here you can see how much money you have made, how much you have spent so far and how much cash you have left. The more winning performances you have at venues, the more cash you will have to spend on instruments and clothing.

Magazine:

Be sure to check out the latest in the music industry and catch-up on the most recent headlines, gossip, news. Customize your look; go shopping for latest fashion and coolest instruments. Access hints and tips, review your band stats and play back videos of your songs!

Star Look: Go shopping! Accessorize! Buying cooler clothes and rad instruments for your band members will improve their Star Level, which in turn earns your band more Fans at the end of each song you play.

Games Room:

Here you can play a selection of guitar based mini games. You can access the mini games with any unlocked and bonus songs. Play to better your own scores or challenge a friend.

Single Player Minigames

To The End Of Time

It's a race against time. Play your heart out to last for as long as you can. While the clock keeps ticking the song keeps looping. You start with 30 seconds of available playtime on any song of your choice, but every mistake you make will reduce your playtime by 5 seconds; this penalty doubles every time the song restarts. Play well to extend your playtime and keep playing for as long as you can to establish a new Time Record. Increasing the Score Multipliers and filling the explosion bar will also increase the player's time. How long can you last until it is Game Over?

Solo Challenge

Unlocked solo tracks will become available here for you to test your solo skills. How many notes can you get right before the solo track is over? Let's see if you are up for the challenge. Try to score 100% accuracy on the Solos. The game scores you based on how many notes you play correctly out of the actual notes available in each solo track. All you have to do is try and hit those notes! (No meters/bars are used in this mini-game.)

Winning Streak

How many notes can you play correctly before you make a mistake? The game counts all successive correct notes and stops counting up as soon as you make a mistake, this number becomes your current high-score and a new count is started. Each time you improve your streak that streak becomes your new high-score.

Two-Player Minigames

To The End of Time

As per the Single Player, the only difference being that it is you versus another guitarist. The challenge is on! Both players start with 30 seconds of available playtime. Play well to extend your playtime. Mistakes will reduce your available playtime! Trigger explosions to reduce your opponent's available playtime! Can you outlast your opponent?

Winning Streak

As per the Single Player, the only difference being that it is a Two-Player. The game counts all successive correct notes and stops counting up as soon as you make a mistake, this number becomes your current high-score and a new count is started. Each time you improve your streak, that streak becomes your new high-score. By the end of the song, the best longest-streak high-score wins! Let the games begin and hit those notes!

Game Options:

FX Volume: Controls all of the ambient background audio.

Music Volume: The playback levels of the background music (vocals, bass guitar, etc).

Guitar Volume: This level will control the volume of your guitar.

Controls: Edit your control configuration.

Screen: Adjust screen position.

Data: Players can enable or disable the autosave and also manually save or load a game from this screen.

Saving and Loading:

At the completion of a song or a major event, your game will automatically save once you have manually turned on the autosave function in the Data section of the Options Menu. At this point, you will be able to shut down, and further continue your progress at a later point in time. Next time you start the game up, just select the Load Band option from the title screen to pick up where you last left off.
