POWER, WEIGHT, AND DIRECTION

When shooting, lobbing, or playing a manual through ball, a power meter appears at the bottom of the screen. Keep the appropriate button pressed to increase power (for speed and distance) and release when the meter has filled. If the meter reaches the red zone, your effort is more likely to be off target when shooting. Press the left analog stick to aim—the ball travels in the direction it is facing when you release the button.

PASSING

Press the left analog stick to direct assisted/lobbed through balls, through balls, passes, lobs, and crosses towards a teammate or teammate's run.

To play first-time balls (passing or shooting without first controlling the ball), press the appropriate buttons before the ball reaches your player.

DRIBBLING

The faster you travel, the trickier it is to trap an incoming pass or keep control of the ball. Try to balance your pace with the need for control.

ATTACKING OFF THE BALL™ CONTROL OPTIONS

Off the Ball™ Running: When your player has possession of the ball, press the L2 button to increase his passing options. Potential ball receivers appear with numbers above their heads. Press the L2 button to cycle through the receivers and press the right analog stick to guide the highlighted receiver's run. To play a pass towards the highlighted receiver, press the S button or A button.

DEFENDING OFF THE BALL™ CONTROL OPTIONS: SECONDARY DEFENDER

GOALKEEPING	
Move/Aim kick or throw	left analog stick
Throw	X button
High kick	S button or O button
Drop ball	A button

SET PIECES

TAKING A DIRECT FREE KICK

FOLLOW THESE STEPS TO HIT THE TARGET:

1. Press the left analog stick to aim the targeting cursor towards the area of net you want the ball to go.

2. Decide what kind of spin to put on the ball by positioning the impact cursor (the point at which you are going to strike the ball) with the right analog stick.

Ballspin: To make the ball swerve, put spin on it by striking it on one side. The nearer to the edge that contact is made, the greater the swerve produced (making contact with the right-hand side of the ball as you look at it sends it swerving in an arc to the right and then back in to the left, and vice versa).

3. To kick, press the S button, X button, or O button to start the kick meter, and press it once more on the upswing to set the power of the shot (stop the pointer near the red zone for more power; the more powerful the shot, the faster the downswing will be). Press it a third time on the downswing to set the accuracy (stop the pointer in the middle of the accuracy zone for the best results).

TAKING AN ATTACKING INDIRECT FREE KICK OR CORNER

1. Press the D-button ↓ and the X button to select a set piece.
2. Select a receiver by pressing the button corresponding with the symbol above his head.
3. Use the Off the Ball™ controls to make space for yourself while waiting for the set piece.

NOTE: Jostling only works on corner set pieces.

ATTACKING INDIRECT FREE KICK/CORNER OFF THE BALL™ CONTROL OPTIONS

Jostling: While waiting for an attacking indirect free kick or corner to be taken, make space in the crowd by jostling with your marker. To give him the run-around, press the left analog stick; to jostle with him, press the right analog stick towards him.
