ARE YOU READY?

wipe'out™

It's 2052 AD. Anti-gravity racing has become the world's biggest sport. The F3600 Race League is where it's at. Tracks stretch across terrain in every corner of the world. Research goes on day and night in the quest to find the perfect race craft, the one that will travel further and faster than anything made before.

It's big business... and you're on the start grid for the next race.

Pick the team you want to race for, take control of your souped-up anti-gravity racer, then ride the six huge circuits leaving the rest to chew fog.

The world's finest pilots are lining up to race for the biggest prize in sport.
Will you reach the end?

Get ready for wipe'out.

Ballistic racing.

A BRIEF HISTORY OF THE F3600 ANTI-GRAVITY RACING LEAGUE

https://www.youtube.com/watch?v=3a2yQ1m1e30

Dr. Fraser of the World Technology Symposium went on to say, "It is clear that many sightings of UFO's are not hoaxes of any kind. We know this because many of the flying objects are in fact anti-gravity machines developed to enhance weaponry capabilities. In deciding to declare the existence of this technology, we are hoping that we can open it up to development by scientists with peaceful intent."

**Michelle da Silva, science commentator
'The Times', May 4th 2018**

It strikes me as odd that government bodies, particularly the World Technology Symposium, have been so hasty in denouncing anti-gravity technology as unsuitable for mass transport systems. They say it is inefficient and not "cost effective". My guess is that this is the voice of the government who have just increased tax on current fuel supplies.

**Tessa Deakin of The Future Transport Campaign
'New Transport Monthly', November 25th 2024**

Suggest we reject Symposium proposals. Sufficient interest exists in US team to continue research. Circulate memo world-wide.

We awake this morning to find that so-called anti-gravity scientists have been wasting public money on countless projects and expense account lunches. The 'AG community' as they are known decided to continue search into anti-gravity transport, even though their governing body insisted that such plans could never be realised. The US government is now demanding an enquiry into the unauthorised spending of the money.

Geena Dawkins

'Hello USA' (TV show), October 22nd 2034

When we gathered in the searing heat of the Nevada desert, we expected perhaps a crudely built prototype model and some embarrassed shuffling on the part of the discredited scientists. Instead we were met by the '000 anti-gravity vehicle which flew across the special track so smoothly and with such speed that jaws simply dropped, and from somewhere across the hills came the sound of words being eaten. It was the government officials who looked uncomfortable as the world's press asked, "Who are the fraudsters now?"

Michael McDonald, science editor

'The European Daily Comment', April 15th 2035

government forced to remove the high tax on fuel which resulted from the official abandonment of the gravity transport program. Other governments expected to follow.

SILVERSTR

Fourteen long years ago, I lambasted the World Technology Symposium because they refused to pursue research into the emergent anti-gravity transport technology. Thankfully, that unprofessional organisation is no more, as is the dastardly government they answered to, and scientists who refused to bow to political pressure. I have emerged as key players in developing the transport system that will solve many of the world's problems.

Tessa Deakin of The Future Transport Campaign
 'New Transport Monthly', February 2nd 2038

Wow! Bunch of us went out in the new anti-gravity vehicles last month! Speedy Gonzalez! You want the race of the future? You goddam got it with these bean machines. Be assured - motor racing is DEAD! You can ride 'em to work or you can ride 'em into the ground... just make sure you're riding one somewhere!

'Biz Newz'

'Race Dayz' (US journal), June 8th 2044

And to the world watching this event, already bigger than soccer's World Cup or the Olympic Games, I say, "See you again next year!" Race on!

TARTING THE GAME

To play wipEout on your Sony PlayStation

1. Set up your Sony PlayStation in accordance with the instruction manual supplied with the system.
2. Follow your system directions to open the CD drive and place the CD onto the bed of the drive, ensuring the printed side faces upwards.
3. Close the CD drive and press the Power button to begin play.

OPTION MENU

Before you can take your place on the track, you need to make a few choices about the game you are about to play.

wipeOut will offer you a number of menus before you play the game. Use the **UP** and **DOWN** arrows on the joystick to highlight your choice, then press the **X** button to select it. To go back through the menus press the **Δ** button.

I-2 PLAYERS/OPTIONS SELECTION

Choose the one or two player game with this menu. See the section headed 'wipeOut with 2 players' for more information on the two player game. You are also offered the chance to go to the 'Options' menu.

OPTIONS

Load and Save: Using Sony PlayStation memory cards, you can store some of WipeOut's variable features. If you select 'Save' you will then need to select 'New File' before choosing a file name of 6 letters. Use the **LEFT** and **RIGHT** arrows on the joystick to cycle through the alphabet and press **X** to select each letter. When 6 letters are selected, use the **LEFT** and **RIGHT** arrows to highlight the word 'End', then select it using the **X** button.

To load information from a memory card, select 'Load' and choose from the list of files provided using the **UP** and **DOWN** arrows. Press **X** to select, and the file will be loaded.

RACING CLASS SELECTION

There are two racing classes in wipeOut. These are Venom and Rapier. When you first play the game you will be in the Venom class - you will only be able to move up to the faster Rapier class when you have completed all six Venom tracks and finished top of the points table.

CHAMPIONSHIP/SINGLE RACE/TIME TRIAL SELECTION

Use the up and down arrow buttons to highlight your chosen race type and press button X to select it.

Championship: Starting on the first track, you will attempt to finish in the top three to qualify for the next one. Points will also be awarded dependent on your placing. If you finish outside the top three you will lose a life - you have 3 lives per track.

If you manage to complete all six tracks in the Venom class AND finish top of the points table, you will be able to move up to the Rapier class. This consists of the same 6 tracks - but tougher!

Single Race: If you choose this option, you will be offered the Team Selection and the Pilot Selection screens followed by the opportunity to select a track. There are six tracks in wipeOut. These are Altima VII, Karbonis V, Terramax, Korodera, Arridos IV, and Silverstream. You will compete against a field of pilots in a 3 lap race.

Time Trial: As in the Single race, you can choose your team, pilot and track. Remember that all weapons will be deactivated in a time trial.

Race against your own best times. You have no one to beat but the clock.

TEAM SELECTION

There are four major teams from around the world involved in the F3600 Anti-Gravity Racing League. Each team invests heavily in research and builds craft to suit their own star drivers - the aim is always to blitz the course and leave the opposition clutching at vapour.

At the start of each race there are 8 contenders on the track. These 8 are made up of 2 pilots from the 4 different teams.

Use the **UP** and **DOWN** arrows to cycle through the four teams. Press **X** to select your chosen team. Remember that the race craft used by each team differ in specification. The Craft Statistics table will help you in your choice.

LEAD / SECOND PILOT IDENT:

PLAYING THE GAME

Championship: If you chose to make an attempt on the championship, you will be taken to the first track in the Venom racing class.

If you fail to finish in the top three on a track, you will lose a life. You have three lives per track. Once you have lost them all, your challenge is over.

Single Race: If you chose a single race against a full field of pilots, you will be taken to your selected track.

Time Trial: If you chose to race against the clock and your own best times, you will be taken to your selected track.

PAUSING THE GAME

Pressing the **START** button will pause the game.

Once paused, you will be offered a menu which allows you to:

- **CONTINUE** the game from the point at which you paused it
- **RESTART** the game so you can begin a race again - you will also lose a life
- **QUIT** the game completely

You can also change the music by selecting **CD TRACK** and then using the **LEFT** and **RIGHT** arrows to change the track. Use the **UP** and **DOWN** arrows to highlight your choice, then press **START** or **X**.

THE GAME SCREEN

As you pilot your craft in the F3600 Anti-Gravity League, you will want to have some important pieces of information at your fingertips. The game screen will tell you which lap of the race you are on, your position in the race, the weapon you have activated (if any), fastest lap times and your own time, and the speed you are travelling.

You can choose to race with an internal viewpoint (this views the track from within the cockpit of your anti-gravity race craft), or an external view (this gives you a view just above and behind your craft). Choose the viewpoint you find most comfortable by referring to the section called 'Controlling Your Craft' below.

These joystick controls are default settings which you can alter if you feel more comfortable using a different arrangement. You do this via the Joypad Configuration Menu. Refer to the section headed "Joypad Configuration" if you would like to alter the controls.

WIPEOUT WITH TWO PLAYERS

You will need 2 PlayStations correctly set up according to the system instructions. They should be connected to each other by a serial cable.

Both players must select the two player game from the first menu screen. Player 2 will then be able to select a team and pilot. While this is being done, Player 1 chooses all the other options: race class, race type, team, pilot and track.

There are two race types.

Two Player Race: Allows both players to race against each other and a full field of six other pilots.

Head to Head: The two players will only race against each other in a one on one showdown. Other game details are described in the appropriate manual section.

WEAPONS AND POWER-UPS

Weapons are used by the Anti-Gravity racing craft to hinder the progress of opponents. All weapons are loaded onto the craft before the race but they can only be activated by flying over a Weapons Grid on the track. The Weapons Grids are brightly coloured sections of track. Just one weapon can be activated at any one time.

Player Weapons

SHIELD Stops enemy missile weapons having a slowing down effect by absorbing the impact. Each shield is subject to a time limit. When a shield is activated, you can't activate another weapon but you can pick one up.

TURBO BOOST Speeds up the craft very quickly for a short period.

MINES These slow down the affected craft with each hit. They are released in batches of five, moving for a few seconds before exploding automatically.

ワズコ-5
SON

F-36 HUNDRED ANTI-GRAVITY RACING "IT'S THE BEST!"

SHOCK WAVES When affected by a Shock Wave, a craft will start shake and be difficult to control for a period of time.

ROCKETS Fires from the front of the craft and causes an opponent to slow down on impact. Rockets have terrain hugging capability and fire only in a straight line. Aim carefully.

MISSILES Similar to rockets, but with heat seeking capability.

Two Player Weapons

In addition to the weapons listed above, there are also two more which can only be used against human controlled opponents in the two player game.

REVCON When fired at an opponent, this weapon will reverse the controls on their joystick.

WHAT'S THIS? You work it out! It's subtle but very useful.
