### future word...

"A ball bounces. A pin drops. A man falls.

Gravity is the glue which binds us to our planet.

We are about to apply the solvent which will free our species forever."

**Pierre Belmondo (Director of European AG Research)**

speaking at a demonstration of anti-gravity technology, Nevada, April 2035.

### the year? 2097

No room for manoeuvre. The world is shrinking... like a raisin from a grape.

From East to West...from North to South...meeting your shadow and the echo of your mind before you even knew you'd left.

Landscapes curling through space, hewn from rock, cut from ice. Ships blur like the smears of hurled paint. Tracking the globe, soundtracking your dreams and your visions...

Never dwell on past days. Leave those damp brown days alone.

Our future has more colour. More speed. More noise. Our future has more...

From jungle to city to the recesses of your mind. Shake your head and free yourself.

Free yourself.

### ARCADE LINK

2-player racing with active Weapon Grids and Checkpoints against a full field of enemy ships. See 2-PLAYER NOTE below.

### ONE ON ONE

2-player racing with active Weapon Grids and Checkpoints but no other enemy ships. See 2-PLAYER NOTE below.

**2-PLAYER NOTE:** Both Arcade Link racing and One On One racing are 2-player games. In order to play them, you will need 2 PlayStation™ game Consoles connected by a Link cable. Both Consoles will need to be running a copy of WipeOut 2097. Both players must select the same 2-player option from the menu. After a few seconds, the message 'Link Up' will be displayed on both screens. The PlayStation™ that completes the link up first will be referred to on-screen as 'Master'. The other PlayStation™ will be referred to on-screen as 'Slave'. From then on 'Master' is Player 1 and 'Slave' is Player 2. Both players can then go into the Team Menu. Player 1 will then be able to go into the Racing Class Menu to make a selection on behalf of both players.

**NOTE:** During 2-player games, follow all on-screen instructions carefully to prevent the link being broken.

**Caution A:** If either player enters the Race Type Menu after a link has been established, the link will be broken. Repeat the process outlined in 2-PLAYER NOTE to set up the link again.

**Caution B:** If either player selects Start after a link has been established, the other player will not be permitted to enter the Race Type Menu or the Options Menu.

**Caution C:** On returning to the main menu from any 2-player game the link will be broken and both machines reset to Single Player Arcade Mode. To start a new 2-player game the link must be set up again by following the process outlined in 2-PLAYER NOTE.

### ARCADE CHALLENGES

If you manage to complete all available circuits in first place while playing in arcade mode, an arcade challenge will become available on this screen. This will seriously test your racing prowess. But it won't end there. Remember that the world of anti-gravity racing is a secretive one - unknown teams could be planning just about anything...

**NOTE:** In all arcade challenges the use of full weapons is compulsory - there is no Weapons Off option available. You will also find that as this is the Arcade Challenge, the track you race on will be auto selected- access to the Track Menu will be denied.

Use the Directional buttons to highlight required team. Press the X button to confirm. Press the Δ button to return to the previous menu.

Each team operates 3 identical craft - technical specifications vary from team to team.

### FEISAR

This European consortium opt for ease of control above speed, although their craft accelerate well. Superb for beginners.

### AG SYSTEMS

A Japanese team with highly controllable craft suitable for beginners. However, shield energy is quite weak.

### AURICOM RESEARCH

The American Auricom team use a powerful engine giving excellent speed capabilities. Their craft are quite tricky to handle and are therefore more suitable for the intermediate player.

### QIREX

This secretive Russian team operate extremely fast, power-hungry ships. The difficulty in controlling them makes the Qirex craft suitable only for very experienced pilots.

(Unconfirmed rumours report a new prototype craft alleged to be very controllable and extremely fast. No further details available.)

Shield

### SHIELD

When activated, a Shield protects your ship from further shield energy loss. Each shield is subject to a time limit. When a shield is activated, you can't fire another weapon but you can pick one up.

Plasma Bolt

### PLASMA BOLT

When activated, a Plasma Bolt has to charge up before it fires. They destroy enemy ships on impact. However, they are not target seeking and are therefore difficult to aim.

Quake Disruptor

### QUAKE DISRUPTOR

Just try it. Needless to say, causes massive shield energy loss on impact and will make you laugh like an idiot for days.

### future sound of london

Mutating from the dance world, FSOL's early classic single 'Papua New Guinea' signalled the start of something unique. Born to confound expectations, FSOL aim stratospherically high. Their debut album 'Lifeforms' was heralded as redefining electronic/dance/new classical sounds and was accompanied by computer graphics, videos. ISDN remote gigs ("death to rock 'n' roll") and musical terrorist tactics of awesome scale. Their last album 'Dead Cities' continues their quest to nail the unexpected.

### erworld

Underworld are Rick Smith, Karl Hyde and Darren Emerson. They are a live techno act. Their last two albums "Dubnobasswithmyheadman" and "Second toughest in the infants", released by the independent record label Junior Boy's Own, sold over 100,000 copies. Their single "Born Slippy", (featured in the film "Trainspotting"), reached No.2 in the National charts in July '96.

For more information on Underworld call Jukes Productions: 0171 286 9532

### rodigy

The Prodigy are: Liam Howlett, who writes the music; Leeroy Thornhill, who dances; Keith Flint, who dances and shouts on "Firestarter"; and Maxim Reality, who MC's and shouts on "Poison". They are probably the most successful dance band in the world - the "Music For The Jilted Generation" album has sold over a million copies, while the "Firestarter" single went straight into the UK charts at Number One in March 1996.

Watch out for a new Prodigy single and album in the autumn of 1996!

### chemical brothers

As DJ's, remixers, and recording artists, the Chemical Brothers are not for the faint hearted! Brothers in rhythm, Tom Rowlands and Ed Simons, met in Manchester and, initially as the Dust Brothers, released three singles before releasing the 'Exit Planet Dust' album on Virgin.

Crashing through musical barriers, the Chem's soundclashes cover all bases: supa-dope hip hop v acid house v chunk funky beats v rock 'n' roll mentality. Stay tuned for a new LP in '97.
