- You cannot use spells or objects when Kain is equipped with a two-handed weapon such as Axes or Soul Reaver, or is in any form other than Vampire.
- When the Spell Box icon is gray, you cannot cast that spell or use that object (for example, when Kain is equipped with a two-handed weapon).

# WELCOME TO NOSGOTH

Steel yourself for a grim experience. As a vampire, you have to hack and think your way through a vast, unfriendly world. And the rules have changed. Things that are harmless to mortals can be deadly to a vampire. Study and learn.

Note – White puffs and “oof” sound effects indicate that Kain is taking damage.

## Terrain

**Water:** Causes damage. In Wolf form, Kain can jump over small streams without damage. In Mist form, he can cross water with no damage.

**Swamp:** Like water, causes damage if crossed unless Kain is in Mist form.

**Lava:** Causes damage when touched, crossed or jumped over in any form.

**Trees:** Chop these down with Axes.

**Standing Stones:** Destroy these by using the Mace.

**Boulders:** Push these aside. As a fledgling vampire, Kain has the strength to push only small boulders.

Note – Drinking from certain Blood Fountains will increase Kain's strength, allowing him to push larger and heavier boulders.

## **Weather**

**Rain:** Causes slight damage.

**Snow:** Causes slight damage.

## **Items**

**Barrels:** Can be smashed open, often revealing power-ups.

**Chests:** Wooden chests open automatically. Iron chests must be smashed open with the Mace. Opened chests reveal power-ups.

### **Buttons, Switches & Levers:**

Throughout the game, Kain encounters wall buttons, floor levers and floor buttons. They are activated automatically by approaching them. Sometimes these devices must be activated in a specific sequence to trigger an event.

**Vista Markers:** Kain can trigger these red, glowing, triangular markers by walking over them. Some yield a descriptive voice-over, others a view to some significant location. Visual Vistas marked with a Bat Form icon indicate that Kain can fly to that location in Bat form. Vista markers in front of signposts and hanging signs yield a magnified image of the sign triggered.

**Note –** To replay Audio or Video Vistas, walk over the triangular marker again and press ●

**Teleporters:** Pads marked with runes. When Kain stands on one, he is teleported to a "receiving" pad.

## Humans

**Villagers:** In Disguise or Beguile form, you can "talk" to villagers by pressing ● when near them.

**Chained Prisoners and Sleeping Villagers:** Fast food. These "meals" don't have to be placed in Waver state before feeding.

## Blood Fountains

Scattered throughout Nosgoth, Blood Fountains bestow various powers when you drink from them. You may drink once only from each fountain.

- Three fountains bestow extra strength.
- Three speed your Magic recovery.
- One bestows protection from rain.
- One bestows protection from snow.
- One bestows an enhanced Disguise form, Beguile, which allows Kain to retain his Vampire form while appearing as a nobleman to humans.

## Spirit Forges

Hidden throughout Nosgoth are Spirit Forges, where you can sacrifice some of your blood for important artifacts.

# FEEDING

Vampires must drink blood to survive. As you explore Nosgoth and gain experience as a vampire, your capacity to hold blood increases. Blood is consumed slowly to maintain your existence. It's also lost when you take damage.

## How to Feed

1. Attack enemies. One hit before enemies die, they sway about the screen in a Waver state.
2. Approach an enemy while it's in a Waver state, and press **●** to feed.

Note – You can also feed by using the Blood Coat and Blood Shower spells or by equipping Flesh Armor.

## Blood Types

The four types of blood each have a different effect:

**Red Blood:** Increases the Kain's Blood Vial (Health Meter).

**Black Blood:** Decreases Kain's Blood Vial (Health Meter).

**Blue Blood:** Ghost/magic blood. Drinking blue blood increases Kain's Magic Meter.

**Green Blood:** Poison. If Kain absorbs any green blood, his Blood Vial turns green and blood loss accelerates until Kain heals himself with Anti-Toxin.

Note – Green blood wears off in time, if Kain has enough blood in his Blood Vial to wait it out.

# STATUS BOX

Keep a watchful eye on your Status Box to avoid an eternity in the abyss.

## INDICATOR

## USE

### SARCOPHAGUS

Depicts Kain's current weapon and armor configuration.

### SPELL BOX

Shows spell or object currently loaded.

### SUNDIAL

### MAGIC METER

Indicates Kain's current level of Magic.

### BLOOD VIAL

2. Highlight an item and press **●** to hear a description of it.
3. Press **X** to equip the item.

ARMOR	USE

CHAOS	Enemies who attack Kain will suffer the same amount of damage as they wreak.
FLESH	Drains an enemy's blood, allowing Kain to concentrate on killing.
WRAITH	When Kain is wearing Wraith Armor, any enemy damage he takes is evenly divided between his Magic Meter and Blood Vial.

**WEAPON****USE****IRON SWORD**

An heirloom-quality weapon equally good for hacking open barrels and enemies.

**MACE**

Stuns human enemies and destroys breakable obstacles.

**AXES**

A brutal two-handed weapon perfect for cutting bloody swathes through multiple enemies. As with all two-handed weapons, Kain cannot cast spells or use objects while equipped with Axes.

**FLAME SWORD**

Burns enemies.

**SOUL REAPER**

This two-handed death dealer explodes enemies with one hit. However, it uses Kain's Magic Energy and prevents him from casting spells or using objects.

## MAGIC

As Kain explores the world of Nosgoth, he will discover spells. Spells are automatically entered in Kain's Inventory when they are picked up. Spells must be loaded into the Quick Spell Menu and then into the Spell Box before they can be cast. Kain can only cast spells when he has Magic Energy. Each time a spell is cast, some of Kain's Magic Energy is used. As Kain collects pyramids, his Magic Energy capacity increases. Magic Energy is replenished slowly over time.

Note – See "Quick Menus," pg. 89, for information on loading and using spells.

**SPELL****USE****SANCTUARY**

Returns Kain to his crypt.

**CONTROL MIND**

Gives Kain mind possession over human enemies until the body of the possessed person is killed or until Kain chooses to "unpossess" the person.

**SPIRIT WRACK**

Gives Kain control over ANY enemy, except bosses.

**ENERGY BOLT**

Destroys enemies with a bolt of energy. Can be used to trigger switches.

**LIGHT**

Illuminates dark areas.

**INCAPACITATE**

Stops enemies.

**STUN**

Sends human enemies into a Waver state, allowing Kain to feed on them at his leisure.

**BLOOD GOUT**

A magical projectile that drains the target's blood into Kain's gullet.

**BLOOD SHOWER**

Blood-gouts all enemies in its area of effect.

**REPEL**

Shields Kain from all enemy attacks and deflects projectiles.

**INSPIRE HATE**

All enemies in the area of effect go insane with hate and attack each other for the duration of this spell.

**SPIRIT DEATH**

Causes immediate death to most enemies (except bosses).

**LIGHTNING**

Calls a rain of lightning upon all enemies on screen. Can only be used outdoors.

## To Assume a Form:

2. Use the **Directional** buttons to highlight the form you want to assume.
3. Press **X** to morph.
4. Press **▲** when you're ready to return to Vampire form.

Note – You must obtain the appropriate form before you can assume its shape.

BAT	Allows Kain to fly to areas marked by Beacons and Boss Levels on the Bat Form Map. (Kain can assume Bat form only when outdoors.)
MIST	Allows Kain to pass through impassable areas such as doors, walls, and so on. Beware the Mist Vortex trap.
DISGUISE	Allows Kain to pass unnoticed among humans.
BECURLE	Allows Kain to retain his Vampire form while appearing as a nobleman to humans. However, once Kain attacks, he reverts to Vampire form.

## HINTS IN A VEIN OF TERROR

- If you get stuck, try backtracking. You may have missed a switch or a trigger.
- Sometimes you need the help of others to accomplish a task. Control Mind is a must.
- Equip a new spell. You may need it to complete the section you're in.
- Wait until night to enter villages for easy feeding.
- Try moving non-stationary objects around. You might unlock something.
- Save smart, save often.
- If you get stuck - or lost, try using the zoom-out view.
- Watch the animations and listen for hints.
- Experiment with armor and weapons. Different combinations can be deadly.
- Certain enemies have weaknesses that can be exploited. Undead are susceptible to fire.
- You know you've backtracked if you see the ghosts of your vanquished foes.
- Certain forms have more than one use. Experiment.
- Sometimes it's better to blend in than to stand out. People will talk to you (or leave you alone) as long as you know how to look.
- Kain is more powerful at night. This is a good time to confront stronger foes.
- Feed well, but do not over graze the pasture.

- Blood Fountains offer Kain much more than a free meal. Listen to the Spirits.
- Once you pass through a land, you're far from through with it. Return there with new powers and you'll find that your patience yields great rewards.
- Don't just wait to use the Heart of Darkness until you need to be resurrected. Use it to add blood to your Blood Vial while you're alive.
- Don't rush. Take time to enjoy the sights of Norgoth. You have eternity to exact your revenge. Use it!

Note – After you clear an area of foes, some will return as ghosts. Ghosts do damage to your Magic Meter. Ghosts' blood adds to your Magic Energy. Game play begins (in Mausoleum) in day 4 hour 17

## SAVING A GAME

1. Walk to a Save Point in a dungeon and step on the base.
2. The screen will ask if you want to save the game. Select YES and press X.
3. The Memory Card Menu appears. Use the **Directional** buttons to select a memory slot.
4. Press X to save the game to that slot and automatically return to the game.
