## THE STORY SO FAR...

It's 1994, the day of the World Cup Final in the United States of America. The atmosphere is e-lec-tric. A capacity crowd is waiting for the match to begin. So too, thousands of miles across the water, is Soccer Kid, sat in front of his television.

A million miles away in outer space, far above the planet Earth, the alien pirate Scab is scanning the area for a trophy of Great Importance to add to his enormous collection.

**'Beep beep beep!'** goes the scanner as it locates the World Cup, the most prestigious reward on Earth, shining brightly in the American sun.

Suddenly, a blanket of darkness falls over the stadium and Scab's spaceship materialises. The crowd is dumb struck until the World Cup disappears from view. They gasp. They boo. They cry seconds later when the stadium is relit... and Scab's ship is already orbiting the Earth.

**BANG!** The smug Scab collides with an asteroid. The World Cup shatters into five pieces which fall to Earth, each chunk landing on a different part of the globe.

Soccer Kid decides there and then to save the day by recovering the five pieces of the World Cup.

Make sure that the power to your Super NES is switched off. Insert the Game Pak, then switch the power on.

If you are playing for the first time, just press the **START** button to start. If you wait a demonstration will run. Press **START** to return to the title screen.

Push the control pad in the direction of the swing to speed it up. Push the control pad in the opposite direction to the swing to slow it down. Press the 'A' button to make Soccer Kid jump off the rope.

## New Balls Please

It's not uncommon to lose Soccer Kid's ball. But don't despair! When Soccer Kid's standing still, press and hold the 'A' button for approximately a second to bring a new ball into play. Note that if you complete a scene using less than ten balls you will get a bonus at the end.

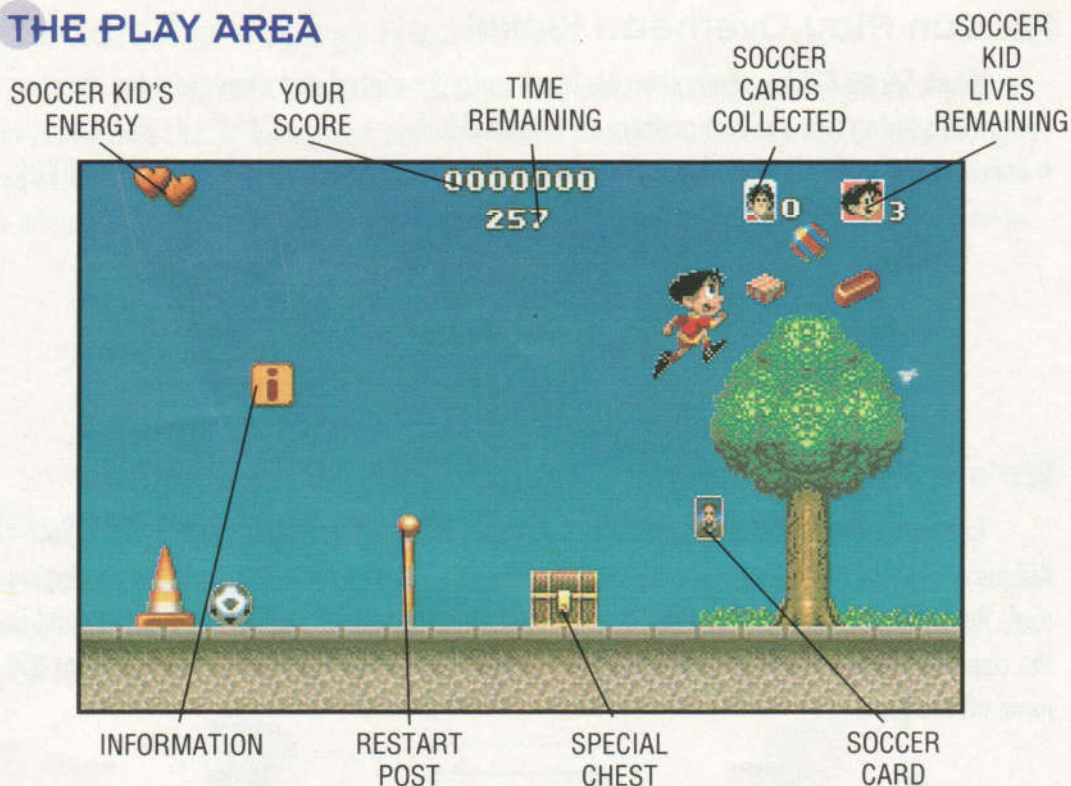

## THE PLAY AREA

### THE PLAY AREA

### Soccer Kid's Energy

Soccer Kid starts with two hearts, but if he bumps into an adversary or anything associated with it, he loses one of these hearts. Extra energy and even extra hearts can be collected (see PICK 'EM UP!).

A Soccer Kid life is lost when no more hearts are remaining. Soccer Kid's energy is topped up when a scene is completed.

### Time Remaining

Soccer Kid has to complete each scene within a time limit. Bonus points are awarded for any time remaining at the end of a scene. On the Normal level of play Soccer Kid will also lose a life if time runs out. On practice level he can carry on even if the time limit runs out.

### Your Score

Points are scored for removing adversaries from play, collecting bonus items and so on.

One Extra Life is awarded for every 100, 000 points scored. But only one hit per kick is permitted when using the ball to kill enemies, open chests, etc.

## Soccer Cards Collected

You need to collect all 11 Soccer Cards to qualify for the Bonus Game where you can attempt to retrieve a piece of the World Cup. Remember each country contains three scenes. The number on the left shows the number of cards remaining on the current scene, the number on the right shows how many cards you have collected in the current country. When you have collected all of the cards zero will be shown on the left and 11 will be shown on the right.

Note:- The number of cards in the current scene is not shown until you have found this information.

**Don't forget: get the set!**

## Lives

You start with three lives but extra ones can be picked up along the way. When no more lives remain, the final whistle blows and it's all over... until next time.

## Information

Kick the ball into this symbol for information about the current scene.

## Restart Post

Should Soccer Kid touch one of these posts he will return to this point instead of the beginning of a scene when a life is lost.

## Special Chest

Kick the ball at the chest until it explodes. Inside every Special Chest you will find a power-up of some description. For further details see PICK 'EM UP!

## THE PLAY AREA

### The Score Board

Once you have completed a scene you are given bonus points for the number of Soccer Cards collected, the number of balls you didn't lose, and time remaining. You are also awarded points for the number of trick kicks used to remove adversaries from play or to collect bonus items.

### The Bonus Game

If you can manage to collect all 11 Soccer Cards from a country you can play the Bonus Game in an attempt to pick up a piece of the World Cup. In each Bonus Game there are 50 items to collect (the number remaining is shown in the top left-hand corner of the screen) before a piece of the World Cup appears below the large flashing arrow. Watch the clock!

## The Map

The Map shows Soccer Kid's progress between countries.

## Hold It!

Maybe you need to take a break, in which case press the "START" button to freeze the action. The word 'PAUSE' will be shown. To resume play press the "START" button again.

There are five countries to visit. Each country features three scenes to explore and complete. Among the obstacles you will find are pits, moving platforms, crumbly platforms, and spikes which not only hurt Soccer Kid but also burst his football. Watch out for secret passages where bonus items are found... and sometimes Soccer Cards!

## COUNTRIES AND THEIR INHABITANTS

### ENGLAND

#### London East End

Soccer Kid's journey begins in the East End of London. Beware of Derek the Bonkers Builder, Stoo's Psychotic Skateboarders and the Rats in the underground.

#### Old Town

Things are a little more peaceful here but it's still no walk in the park. Watch out for Simon's Silly Cyclists and Deranged Dogs roaming the streets.

#### London West End

Back to the hustle and bustle of the city. If you reach the end look out for Gareth, a rogue rugby player.

## ITALY

### The Riviera

It's hard to miss the Moped Maniacs riding up and down the beach.

### Roman Ruins

Among the crumbling masonry you will find swinging demolition balls, deadly darts, Poisonous Snakes and (GULP) ghosts.

### The Venice Lido

A beautiful beach and a rare performance by the world famous opera singer Paverelli. He hates football and kids. Oh dear!

## COUNTRIES AND THEIR INHABITANTS

### RUSSIA

#### MOSCOW

Heavy snow is forecast but there's plenty here to keep you warm. Don't bump into the Slav Sledgers or the squirrels.

#### The Battleship

Beware the big uns - especially the ones in the hands of crazy sailors!

#### Red Square

The snow is falling and the Russian Gymnasty Assassins are out in force.

## JAPAN

### Nagoya

Soccer Kid must really take care here, not all of the robots are docile. There's also the Mad Professor armed with his latest invention.

### Bullet Express

Prepare yourself for a high-speed train trip you won't ever forget. Avoid the coal-throwing moles and the restless robots. And mind the signposts - you will be warned, so prepare to duck!

### Tokyo

Don't let the fireballs, sparks and crushers make their mark. Look out for the secret tunnels and Sarky the crazy sumo wrestler.

## COUNTRIES AND THEIR INHABITANTS

### USA

#### New York

Soccer Kid definitely has street cred but can you prove it?

Beware of falling Bricks, Workmen on the streets and Ricky's 'High Rollers'.

#### California

Falling coconuts and bouncing beach balls are best avoided, and so too are the mad, jumping clams and the alligators.

#### Chicago

It's not safe here. Rats scurry around the sewers, and deranged dogs run wild in the streets.

But to top it all there's Chuck, the crazed American Footballer.

Run or jump into any of the following - or use the ball to collect them.

## Extra Time

Collect extra units of time to help Soccer Kid complete the scene.

## Extra Stamina

Have a heart... Soccer Kid can have a maximum of five, which means he can take extra hits from something bad.

## Extra Energy

Tops up Soccer Kid's energy level.

## Invincibility

The effect is temporary. Soccer Kid flashes while he is invulnerable. Actually, he's not quite invincible: he is still hurt by spikes.

## Extra Lives

Collect one for an extra life.

## Speedy Boots

When Soccer Kid has these he runs twice as fast and is invulnerable - but he should still avoid spikes!

## PLAYING ADVICE

- \* Before you play, take time to familiarise yourself with Soccer Kid's control and skills.
- \* A scene may contain more than one information symbol. Hit them with the ball whenever you see them.
- \* Kick the ball over spike pits - it could save your life!
- \* Kick the ball ahead - you may hit an off-screen adversary!
- \* Look down before dropping into a gap - there may be danger below!
