SUPER MARIO BROS.

THE LOST LEVELS

STORY

The Mushroom Kingdom was a peaceful place, until the fateful day that Bowser used his twisted magic to invade it. Bowser turned most of the Mushroom Kingdom's people into rocks, bricks, and mushrooms. He even kidnapped Princess Toadstool and held her captive in his huge castle.

When the Mario Brothers, Mario and Luigi, heard this, they knew that they needed to do something. They decided to battle Bowser and his evil minions to save the Princess. Can they do it?

HOW TO PLAY

SUPER MARIO BROS.

First, pick 1 PLAYER or 2 PLAYER mode. When you play the 2 PLAYER mode, controller 1 is for Mario and controller 2 is for Luigi.

On The Screen

STAGE

Goal

At the end of each stage, there is a flagpole and a castle. The higher you grab on to the flagpole, the higher of a score you get. When you begin a stage, the TIMER starts to count down. The more time you have left when you grab the flagpole, the higher of a bonus you receive.

If one player clears a stage or loses a life in 2 PLAYER mode, it will be the other player's turn.

In Super Mario Bros. and Super Mario Bros. : The Lost Levels, the high scores are saved too. To reset the high scores, press the A, B, L and R Buttons at the same time.

On the File Select screen, if you choose the B type controller layout by using the SELECT Button, the B Button layout will function the same as the X and Y Button.

*Hold the controller like this.

★ **Running**

When running, you can go over holes that are one space wide.

★ **Jumping**

The longer you hold the jump Button, the higher you jump.

★ **Crouching**

★ **Getting into a pipe**

★ **Swimming**

Mario can get powered up by picking up items. These items are usually hidden inside of blocks. All you need to do is punch them from below.

Punch the block that they are on.

Knock them down with a moving object (like a koopa shell).

Become Fire Mario and throw fire balls.

LOOK OUT!

You lose one Mario if:

- ▶ **An enemy touches you.**
 - If you are hit when you are Super Mario or Fire Mario, you just turn back to small (normal) Mario.
 - After you turn back to small Mario, you are invincible for a short period of time (as long as Mario is flashing).
- ▶ **You drop into a hole in the ground or a hole underwater.**
- ▶ **The timer reaches zero.**

Super Mario Bros.: The Lost Levels is a special version of the original Super Mario Bros. The play controls are the same as in the Super Mario Bros. game, but the game is much more difficult. (This is why you can save at any stage instead of just at the start of each world.)

There is no 2 PLAYER Game. First, you have to choose from **MARIO GAME** or **LUIGI GAME**. Luigi can jump higher than Mario, but is harder to stop. After your game is over, you can try using the other character. You may find this useful in clearing some of the stages.

In **Super Mario Bros.: The Lost Levels**, look out for the poisonous mushrooms! They are not very good for our heroes!

SUPER MARIO BROS. 2

STORY

One evening, Mario had a strange dream. He dreamt of a long, long stairway leading up to a door. As soon as the door opened, he was confronted with a world he had never seen before spreading out as far as his eyes could see. Suddenly, he heard a faint voice saying "Welcome to 'Subcon', the land of dreams. We have been cursed by Wart. Please defeat Wart and save us. Remember, Wart hates vegetables. Please help us!"

The next day, on the way to a picnic, Mario talked to Luigi, Toad, and the Princess about the strange dream he had. After arriving at the picnic area, they found a small cave. When they opened the door in this cave, to their great surprise, the world that Mario saw in his dream spread out before them!

HOW TO PLAY

SUPER MARIO BROS. 2

Pull up vegetables, look out for the enemies and defeat the bosses at the end of each level.

After you start the game, you can choose to play as Mario, Luigi, Toad or the Princess.

The red hearts on the left of the screen are your life gauge. When all of the hearts turn white, you lose a life. When only one heart remains, your character will become smaller.

If you want to go back to the start of the stage you are in, press the START button, then press the L, R and SELECT buttons at the same time. (You will lose one life by doing this).

★ Moving Jump

Jump while moving to jump higher. If you use the Y Button to run, then jump, you'll jump even higher!

★ Power Squat Jump

Hold Down on the + Control Pad until your character flashes. If you jump while flashing, you can jump one and a half times higher than normal.

★ Pull Up The Veggies!

Use the Y Button to pull vegetables out of the ground. When you press the Y Button when standing on the grass, you will pull it out and lift it up. On the surface of the desert, you can also dig in the soft sand.

★ Carrying A Mushroom Block

When you stand on a mushroom block and press the Y Button, you can lift it up just like a vegetable.

★ Throwing Items

If you are carrying something, you can throw it by using the Y Button. To throw it even farther, use the + Control Pad while you throw.

Dodging Enemies

By pressing Down on the \oplus Control Pad you can duck. This can help you avoid enemy attacks, particularly from flying enemies. Another helpful hint is knowing that you can make your character move left and right while they are jumping. Try to land right on the enemies' heads and pick them up!

Enter Doors

To go through a door, stand in front of it and press Up on the \oplus Control Pad.

Vegetable

These freaky vegetables have grown huge! Collect enough of them and a stop watch will appear.

Tiny Vegetable

These veggies are still growing. But you can still use them to defeat your enemies.

Bombs

After you pick up a bomb, it will flash just before it explodes. Use the bombs to blow up rocks or other things that get in your way.

Shell

When you throw the shell, it skids along the ground, hitting anything in its path!

Mushroom Block

Mushroom blocks can be used as stepping stools if you need to jump up to a higher area.

POW

POW blocks are POWERful! When one hits the ground, it damages all of the enemies on the screen.

Mushroom

Mushrooms are only found in sub-space. They refill and add to your life hearts.

1-Up Mushroom

An extra life is yours after you pick up a 1-Up mushroom.

Small Hearts

After you defeat a lot of enemies, a small heart may come floating up from the ground. Grab it to refill one of your life hearts.

Key

Very useful (in fact, they're required) when you want to cruise through a locked door.

Magical Potion

When you throw a Magical Potion, a door to sub-space will appear. If you throw it in the correct place, you'll find mushrooms and coins inside!

Cherry

If you pick up enough cherries, an invincibility star will appear.

Star

Stop Watch

If you pick up five large vegetables in one stage, the Stop Watch will appear. Get the watch to make all of the enemies stand still for a while. Be careful though, even stopped enemies can hurt you.

How to use bombs.

If you reach a dead end, you may need to use bombs to blow a hole in the wall. Be really careful when you use bombs-- they can hurt you!

Get 1-Ups At The Slot Machine!

When you clear each area, a slot machine is waiting for you. You can play it once for every coin that you have found in the previous level.

SUPER MARIO BROS. 3

STORY

The Mushroom Kingdom has been a peaceful place thanks to the brave deeds of Mario and Luigi. The Mushroom Kingdom forms an entrance to the Mushroom World where all is not well. Bowser has sent his 7 children to make mischief as they please in the normally peaceful Mushroom World. They stole the royal magic wands from each country in the Mushroom World and used them to turn their kings into animals. BEWARE! THE FOLLOWING ARE DEADLY!

You lose one Mario:

- When you are touched by an enemy. If you're Fire Mario, or Raccoon Mario, you won't lose a life if you're touched by an enemy. You just go back to being Super Mario. If you do get hit, Mario will flash for a few seconds. During this time, he is invincible.
- When you fall into a hole or into fire.
- When you run out of time (time remaining goes down to 0.)

 **START PANEL**
 Mario starts from here.

 **ACTION SCENE PANEL**
 This panel contains an action scene. If Mario gets defeated while in an action scene, he will be put back on the World map.

 **CLEAR PANEL**
 When you clear an action scene, this panel appears. In the 2 player mode, if Mario clears it, an "M", if Luigi clears it, an "L" will be displayed.

 **SPADE PANEL**

Here, you play a slot machine type of game. The object is to line up the pictures. Every time you push the B Button, it will cause a line to slow down and stop. If you complete a picture, you can get extra Marios.

-  **Mushroom Picture**
2 Extra Marios (2-Ups)
-  **Flower Picture**
3 Extra Marios (3-Ups)
-  **Star Picture**
5 Extra Marios (5-Ups)

 **N-MARK SPADE PANEL**
 Occasionally this panel will appear on the map screen. It contains a "memory match" card game. Choose two cards with the \oplus Control Pad and the B Button. If the two cards match, you will receive the item on the cards. Miss two matches and you'll go back to the World map.

 **MINI-FORTRESS & LOCKED DOOR**
 The Mini-Fortresses are guarded by Boom Boom, a tough servant of Bowser. When you defeat him, you will get a Magic Ball. The Mini-Fortress will tumble to the ground and the Locked Door on the map screen will open.

 **TOAD'S HOUSE**
 Mario can get some useful items here. Stand in front of the treasure boxes and press the Y Button.

HAMMER BROTHERS

The Hammer Brothers are bound to be hanging around somewhere on the map. As soon as you meet up with them, a battle will take place. If you can defeat them, you will be rewarded with a special item.

FORTRESS

This is the final destination of each World. You must retrieve the royal magic wand and save the king!

If you don't succeed in defeating the Koopalings, their airship will move to a different place on the Map screen. Chase it and challenge them again!

Goal

At the end of each action scene, you'll find a goal. In the center of the goal, three kinds of cards will flash. Jump up and touch the goal to grab a card and clear the level. If you get three cards, you will get an extra Mario. If you get three cards of the same type, you'll get even more extra marios.

3 Mushroom Cards **2 Extra Marios**

3 Flower Cards **3 Extra Marios**

3 Star Cards **5 Extra Marios**

The cards are displayed in the bottom right corner of the map screen. At the end of an action scene, a bonus is added to your score depending on how much time you have left.

The items that you can get in Toad's house or by beating the Hammer Brothers can be used on the Map Screen. You can only use one item at a time. While on the Map Screen, press the Y Button to display the items that you possess (they will be shown in the box at the bottom of the screen). Choose the item you wish to use by using Left and Right on the \oplus Control Pad and activate it with the B Button. They are very useful because you can start an action scene with a powered-up Mario, or you can make a route on the map easier to go through. You can see all the items you have by using Up and Down on the \oplus Control Pad. Press the Y Button to go back to the Map screen.

Super Mushroom

Magic Whistle

Not much is known about the legendary Magic Whistle. See if you can find it!

Anchor

This can stop the Koopalings' airships from moving on the map.

In the 2 PLAYER game, player 1 and player 2 take turns clearing the action scene panels. The two players can choose to cooperate or to compete against each other. An interesting addition to the 2 PLAYER game is Battle Mode (just like the original Mario Bros. game). If one player is in the same space on the map as the other player, then the 2 player battle mode can be entered by pressing the B button. In the Battle Mode, the losing player is moved back to the point where the battle took place. The winner can continue into the game.

In the 2 player Battle Mode, you can't lose any of your extra lives—even if you get hit by an enemy!

Game Over in the 2 PLAYER Mode

In the 2 PLAYER mode, when the game is over for one player, the GAME OVER screen will appear. Choose CONTINUE or END by using the \oplus Control Pad, then press the START Button. If you choose CONTINUE, the game will start at the beginning of the world that you are in. Your items will change back to what you had when you started the World.

If Mario and Luigi are in the same place on the 2 player mode map, or if either of the players choose Battle Mode, you can play the CLASSIC MARIO BROS. game. The object of this game is to punch these enemies from below to overturn them, then kick them away. The POW block at the bottom center of the screen is able to give the whole screen a jolt! You can only use the POW block 3 times.

Rules

● 2 Player Battle Mode

There are five enemies shown (not counting fire balls). Whoever defeats three enemies first, wins! If an enemy touches you, you lose. When one player is punched from below by the other player, one of the punched player's cards will pop out. You can steal you opponent's cards in this way.

In the Battle Mode, there are a couple of games in which two players compete to see how fast they can collect the coins.

● Battle Mode

After you kick enemies away, get the coins which come of the pipe. Whoever gets 5 coins first is the winner of the game. If the enemy touches you, you lose. Your old buddy, Koopa, will be found here. Try to jump on him, because he is the only enemy you can attack from the top. In the Battle Game, there are two kinds of mushrooms. One is a Super Mushroom, the other one is a mystery!

When the game is over, choose CONTINUE or END by using the \oplus Control Pad, then press the START Button. (Your points cannot be saved.)

If you win five times, you win the Battle Game.
